

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. From S. R. Hooper (Harvard, '95), Principal Wadleigh School, Winchester, Mass. "Having been enrolled in several of the best-known Teachers' Agencies, I can speak from experience when I say that the BRIDGE TEACHERS' AGENCY does more for a young man just out of college than any other agency I know of. I received more notifications, and of higher grade positions, from this agency than from any other. I certainly shall recommend it in the future, as I have in the past, to all my friends."

PREFACE.

Volume XXII. of the HARVARD INDEX is arranged after the pattern of previous years. Each year this publication becomes more indispensable to the student body, since it is the only medium to secure, in a simple, condensed form, all the organizations at Harvard.

The lettering on the cover this year is black, in place of gold. This change is more in the nature of an experiment, although the substitute is the natural color expected in combination with the crimson.

The only organization dropped from the list this year is the *Harvard Daily News*.

Additions to the publication this year are, the Samoset Club, the Good Government Club, the Harvard Club of Atlanta, the Jowett Club, the Harvard Graduate Philosophical Society, the Amphadon Club, the Harvard Memorial Society, Record of the Harvard-Yale debates, the Harvard-Princeton debate, the '98 Freshman Harvard-Yale Debate, the Phi Delta Theta Club, the Cambridge Latin School Club, Noble's Club, the Central New York Club, the Brewster Academy Club, the Minnesota Club, several new Law Clubs, the Lacrosse Association, the Push-Ball Association, and the Harvard Rifles.

Owing to a new regulation of the College authorities, this year's INDEX is delayed till after the Catalogue. Hereafter, as this year, the complete revised list of students will not be furnished to the INDEX till the Catalogue is published.

We wish to express our gratitude to Mr. Williams, the editor of the University Catalogue, to Mr. J. G. Lathrop, Instructor in Athletics, to Mr. C. C. Carter, and to the secretaries of the various college clubs, all of whom have aided us materially in our task.

We commend to the patronage of our subscribers all the advertisers in this publication. The leading dealers are indexed and every trade is represented.

In 1880, when the Hemenway Gymnasium was opened and Dr. Sargent began using the present system of testing strength, the best Harvard record, according to his method of calculating total strength, was 750. This has since been exceeded by 382 students; 75 of them reaching 900; and 34, 1,000 points. C. D. LYFORD, Supt.

Why use Pond's Extract? Why not something else? Because—

Dr. J. J. THOMAS says: "It is incomparably superior to any extract of Hamamelis I have ever used."

Dr. O. G. RANDALL says: "Nothing can equal Pond's Extract. I have tested others, and yours is four times as strong as the best."

Dr. J. C. MITCHELL says: "Pond's Extract of Hamamelis Virginia is the only reliable article I have found."

Dr. H. K. WEILER says: "The difference between Pond's Extract and so-called Witch Hazel is the difference between a cent and a dollar."

Dr. H. F. MERRILL says: "It is far superior to any I have used in strength and purity."

Dr. R. J. HARRISON says: "I have never found any extract equal to Pond's."

Dr. POWELL says: "Hereafter I shall use no other than Pond's Extract."

And numerous others of similar purport.

No proprietary article on the market is so much imposed upon as Pond's Extract; but the poor quality of Witch Hazel being manufactured, and the poor results obtained by using it, are fast educating the public to buy the genuine article.—THE WESTERN DRUGGIST.

And that's why.

The series is doing an immense service to the reading public and to the cause of history, in bringing forth adequate, though brief, records of the lives of eminent men of whom the general knowledge has become vague, erroneous or traditional. — *New York Times*.

Prof. Goldwin Smith, speaking of the series of American Statesmen in "The Nineteenth Century," says: "It seems to us a very valuable series. It furnishes a history of American politics in the attractive and impressive form of biography."

The educational value of such books is not to be easily over-estimated. To young men especially they will be a political library of the utmost value. — *Boston Traveller*.

Every young American ought to read, and, if possible, own this valuable political library. — *The Critic*.

Invaluable to the student of American history. — *New York Examiner*.

PRACTICAL Trousers Hanger and Press. Keeps Trousers "Smooth as if Ironed."

It is scientifically, strongly, and compactly constructed, of beautiful hard wood and nickel-plated brass parts. It is automatic in action and adjusts itself to any thickness of material. It will positively remove all traces of marks and wrinkles caused by turning the trousers up on a rainy day. It does not mark the cloth by ugly cross marks (all other devices do). It is so easy to use as to be

"QUICKER THAN CARELESSNESS,"
and if after a trial it does not give satisfaction, return it and we will refund.

We send you free on request facsimile letters of some duplicate orders (the strongest kind of testimony) and our interesting circular.

Price, 75 cents each. Sent post-paid on receipt of price in stamps or otherwise.

Or we will send (express paid) a set, as shown in the picture, consisting of six of the Practical Trousers Hangers and three Closet Rods (which are described below), for \$5.00. We sell hundreds of such sets.

Also, the PRACTICAL Closet Rod, price 25 cts., postpaid. It is made of wrought steel, nickel plated, is nine inches long, and constructed with a detachable socket, rendering it very easy to put in place (a truly good thing to increase the capacity of a closet).

Did you ever go to your closet and find several coats, a pair or two of trousers, and perhaps some of your wife's dresses, all hanging on the same hook and on top of just the garment you wanted? Well, this never happens when you use our devices and arrangement. The picture shows why this is, and indicates the capacity of a Rod.

We manufacture also a LADIES' SKIRT HANGER, of which we sell great numbers. Send for free circular.

Webster's International Dictionary

Successor of the
"Unabridged."

Standard of the U. S. Supreme Court, of the U. S. Government Printing Office, and of nearly all the Schoolbooks. Warmly commended by every State Superintendent of Schools.

THE BEST FOR EVERYBODY BECAUSE

It is easy to find the word wanted.

Words are given their correct alphabetical places in the vocabulary, each one beginning a paragraph so as to be readily caught by the eye.

It is easy to ascertain the pronunciation.

The pronunciation is shown by the ordinary diacritically marked letters used in the schoolbooks, whose sounds are taught in the public schools.

It is easy to trace the growth of a word.

The etymologies are complete and scientific, and the different meanings a word has acquired are given in the order of their development.

It is easy to learn what a word means.

The definitions are clear, explicit, and full; terse, yet comprehensive. Each definition is contained in a separate paragraph.

THE REVIEW OF REVIEWS.**

Trial Subscription, Five Months, \$1.00.

"We are deeply impressed, from month to month, with the value of the 'Review of Reviews,' which is a sort of Eiffel Tower for the survey of the whole field of periodical literature. And yet it has a mind and voice of its own, and speaks out with decision and sense on all public topics of the hour. It is a singular combination of the monthly magazine and the daily newspaper. It is daily in its freshness; it is monthly in its method. It is the world under a field glass. If we were the teacher of a school, we should use the 'Review of Reviews' as a reader, and so make it do duty as an illustrated text-book in current history." — *The Literary World*, Oct. 5, 1895.

"Being a theological student, I find comparatively little time for current literature, but the 'Review of Reviews' enables me to keep fairly abreast of the times. It saves me a great many hours." — *C. S. Macfarland*, Yale University.

THE REVIEW OF REVIEWS, 3 Astor Place, New York.
